

2025/2026

Dear Sports Friends,

With great pride, we present to you this GPS–Champions “*Olympiad*” book a beautiful book that you will most certainly want to keep. As an organization, we have worked with great dedication to make this a truly special publication.

The idea to bring this book to the market originated from the wonderful cooperation between us, GPS–Auctions and Dreampigeons.com (Bart Hooegeveen). Over the past years, our collaboration has grown steadily stronger, developing into an intensive and successful partnership.

In December 2025, we also jointly organized the “*Pearls of the Sky*” event, which turned out to be a great success. We achieved the highest total result of all seven editions to date, with an outstanding average of €5,400 per pigeon.

Our cooperation in auctions has expanded significantly as well, and this too has clearly proven its value. However, beyond auctioning pigeons, we wanted to give something back to the fanciers and our customers. This led to the idea of producing a special edition of our GPS–Champions book.

Our goal was to present and highlight all *Dutch Olympiad participants*, giving them extra recognition for representing our country through their exceptional performances. This project was realized in close cooperation with the National Federation (NPO), who also believe it is essential that these top athletes receive the appreciation they deserve. All nine categories, featuring a total of 27 pigeons are presented in detail.

Unfortunately, we are currently no longer allowed to officially use the term “*Olympiad*”, and the event is now referred to as the “*International Racing Pigeon Fair*.” In our view, this name lacks the prestige of the original title.

Let us hope that the *Olympiad* designation will soon return, as the final decision has yet to be made. After all, who does not dream of achieving the highest possible honor in pigeon racing, representing one’s country with an own *Olympiad pigeon*?

As is well known, these books are available free of charge. A total of 15,000 English–language copies (for the European market) and 10,000 Chinese–language copies have been printed, which naturally represents a considerable investment.

To finance this project, we approached international fanciers with the opportunity to present themselves in this publication, allowing them to gain greater exposure to a global audience, something this platform undoubtedly delivers. To help these participants recover their investment, we will be organizing an outstanding *GPS–Champions* auction, in which each participant may offer a maximum of four pigeons for sale.

This auction will commence after the *International Racing Pigeon Fair* in Dortmund, where this book was officially launched. We sincerely hope you will support our customers, as without these dedicated fanciers, this magnificent reference work would never have come to life.

For updates on this auction and its exceptional offerings, please visit our website: **www.gps-auctions.com**, so you do not miss out.

In addition to the top fanciers, we also approached the business community to highlight their companies, and many businesses kindly committed their support, for which we are very grateful. Finally, we would like to thank the Dutch pigeon racing magazine *Het Spoor der Kampioenen* and the NPO Board for their tremendous efforts and valuable

contributions to this publication. Thanks to this strong cooperation, we believe the result is a truly beautiful book.

We wish you much enjoyment in reading this publication.

*Team GPS-Auctions &
Dreampigeons.com*

FROM LEFT TO RIGHT: BERNARD V. OERLE - BART HOOGVEEN - ROLAND KOP - DANNY DE HOOGH - LEX DE JONGH - WILLIAM GEURTZ

Dear Sports Friends,

For many of us, the Olympiad in Maastricht is still fresh in our memory. A truly special moment in Dutch pigeon sport. Organising it was a tremendous task, but fortunately the final result more than lived up to expectations. For many, it was a remarkable experience and a wonderful memory to look back on. Two years later, the next Olympiad, now renamed the International Racing Pigeon Fair, is being organised by our neighbours in Dortmund. You have probably heard that the FCI has not let the matter rest and has initiated legal proceedings against the Olympic Committee in order to retain the right to use the name “Olympiad” for pigeon sport. After Dortmund, we will know whether the next event, the 40th edition, will once again be allowed to carry the name Olympiad. We will have to wait and see!

Initially, the intention was to organise this event in China. However, once again avian influenza put a stop to those plans. As a result, the event is once more being held close to home for Dutch fanciers, an ideal opportunity to visit the world's largest event in the field of racing pigeon sport. Such events are all about the many new contacts that are made, as well as meeting “old” acquaintances who come together every two years, rekindling numerous friendships. In short: the place to be. Naturally, it is also the perfect moment to visit the exhibition with its many international exhibitors and to familiarise yourself with the very latest developments in pigeon sport.

For every fancier, it remains the ultimate reward to have performed so exceptionally that you are allowed to represent the Netherlands at the most important event in the world. This honour is reserved for those who rank among the top three fanciers in one of the nine different categories. They are presented in this book, a lasting memento of this special event. Of course, the owners of the best pigeons in the Netherlands are also extremely curious to see how their birds will rank on the global stage. Who will ultimately stand on the podium in Dortmund? In other words, who will finish in the top three in the various categories? This will be announced during the opening of the event, exciting times!

At the time of writing, there is still considerable uncertainty regarding the physical participation of pigeons at the International Racing Pigeon Fair in Dortmund. The reason is well known: avian influenza. For the Racing Team, however, there will certainly be an outcome, as all countries submit their top three competitors along with the corresponding coefficients. Therefore, a final ranking can be determined, even without the pigeons being present.

For the Standard Team, the situation is entirely different. At present, we are not permitted to gather pigeons in order to select those eligible for participation in Dortmund. We are doing everything possible to obtain an exemption for this. The request has already been submitted to the authorities.

In addition to all the information about the International Racing Pigeon Fair, this book also pays attention to the movie *Duivinder*, which will be released in cinemas from 5 February. Another event to look forward to, hopefully it will attract many visitors and once again make pigeon sport a topic of conversation in Dutch living rooms.

You will also find the new NPO Grand Prix calendar for 2026 in this book. The most important change is that the famous classic Barcelona has been included among the ten NPO Grand Prix races for 2026. There is also time to look back and enjoy the award ceremony of the 2025 Grand Prix winners. The photos of the winners who stood on the podium on 13 December are given the attention they deserve in recognition of their outstanding performances.

I wish the visitors of the International Racing Pigeon Fair in Dortmund a very enjoyable time and I wish you all a successful 2026 season.

Ben Geerink

Olympic Kamikaze

♀ NL23-4243140

1. Olympiad Bird Cat. Sprint 2026

Qualifying for the Olympiad once is already a remarkable achievement, doing it multiple times demands not only the skills of a top fancier, but also pigeons capable of extraordinary performances. Foeke Hoekstra from Ternaard is exactly such a man. Racing under the name Hoekstra/Mendes.

For the 2026 Olympiad, he holds pure gold in his hands with the hen "Kamikaze." With an impressive margin of 3.14 points over the runner-up, Kamikaze claimed the top position in the Speed category, making her the number-one sprint pigeon representing the Netherlands.

Her name is no coincidence. According to Foeke, she returns home "as if chased by the devil," diving onto the trapping board with such force and determination that she has injured herself several times. On one occasion she even required stitches due to the severity of the wound. These incidents meant she had to miss several races. All the more remarkable, then, is the fact that she still finished the season as the national number one.

In 2024 she already showed her potential while racing on small youngsters, scoring a 2nd and 3rd prize in District 1 of his Provincial. During the late-tour she is raced on the nest, with Foeke sometimes provoking jealousy by shifting a neighbouring hen closer to her cock, or by separating her partner for a few days. On the regular races she is raced on widowhood, locked up the entire week without seeing her cock until she returns from a flight, a system she responds to exceptionally well.

39. INTERNATIONAL
RACING PIGEON FAIR
Dortmund 2026

7

Last Olympiad Foeke was already the best in Maastricht in the sprint category with Olympic Maria, but he rates Kamikaze even higher. That promises a great deal for the future.

Kamikaze also carries the blood of champions. Her father "Blue Dream" is likewise the sire of Olympic Maria, making the two hens half-sisters. Blue Dream's own father originates from a pairing of Belgian fancier Maurice Hasendoncks. The mother of Kamikaze, the "22-901", was purchased via PIPA and is a daughter of the renowned "Blue Best Kittel" and "Olympic Shakira."

Hoestra / Mendes

Olympic Marion

8

♀ NL22-8165788

2. Olympiad Bird Cat. Sprint 2026

Let me introduce you to a hen with a true winner's mentality. This exceptional pigeon comes from the loft of the Homma Brothers in Steggerda, a partnership known not only for their at times astonishing racing performances, but unfortunately also for the cowardly theft in which around one hundred pigeons were stolen from their loft several years ago. A blow that would have knocked many fanciers down for good, but not brothers Elco and Ydo Homma. Their motto was simple: we struggle, and we rise again. And rise they did.

Since that theft, they have already secured eight first prizes in their Provincial, and soon, at the Olympiad in Dortmund, they will present a hen who achieved the remarkable feat of ranking as the second-best sprint pigeon of the Netherlands. Perhaps "Olympic Marion" herself is not entirely satisfied with second place, because Elco says she always aims to be the first to touch the trapping board. Whether the birds arrive together from a race, a training session, or simply after circling above Steggerda, she always makes sure she splits off just a fraction sooner than the rest.

Formerly known simply as "Marion," she may now proudly carry the name "Olympic Marion." The name "Marion" comes from the sister of Marco Zandvoort of Rijssen, since the mother of Olympic Marion originates from Marco's loft, the brothers found it fitting to name her after his sister.

"Olympic Marion" is raced on widowhood, with her cock always staying home, ensuring she is never disappointed upon returning from a race. The trust in this hen is immense: this year she was listed as the first nominated pigeon on nearly

39. INTERNATIONAL
RACING PIGEON FAIR
Dortmund 2026

every race. As a youngster she showed herself regularly, though she wasn't yet at the top. But as the years progressed, her performances kept improving, with 2025 becoming a true peak season.

In terms of behaviour, she doesn't particularly stand out in the loft, except for the fact that she always sits perfectly tight and composed. According to Elco, she would also perform quite well at exhibitions.

The father of "Olympic Marion" comes from the Krijgsman-Boogaard partnership, also from Rijssen. Tracing her pedigree further back, we encounter well-known names such as Arnold Paalman and Herman Pouw.

Gebr. Homma

Olympic Suze

♀ NL23-9407898

3. Olympiad Bird Cat. Sprint 2026

Olympic Suze boasts a record to make any fancier's mouth water: 20 prizes in the top 1% (without doubles) in just two seasons. She is a beautifully built hen with a strong frame, supple muscles, and exceptionally soft feathering. She was raced on total widowhood, and her greatest motivation is the fierce drive she shows when protecting the nest box she shares with her partner. Their box is located low in the loft, just above the floor, and Olympic Suze has a habit of chasing away any pigeon that dares to wander too close. She spends more time defending her territory than cuddling with her mate.

As a young bird, she was lost during a hot-weather race with an east wind, most likely due to thirst. She was found by a fancier near Cadzand, close to the North Sea. The very next day she was collected by a pigeon courier and returned to Team Hooymans NL in Wijk en Aalburg. After a week of rest, she was basketed on Thursday for the provincial race from Melun, on which she scored a fine prize. One week later she was again sent on Thursday, this time to Morlincourt. Conditions were tough, high temperatures and an east wind. Likely having learned to drink in the basket after two nights away, she excelled and won 1st NPO against 5,035 pigeons, flying a remarkable 40 mpm ahead of the runner-up in the region.

Achieving an Olympiad pigeon is the ultimate dream for any fancier, there is no higher honour in our sport. After Olympic Special Boy and Olympic Lieke,

39. INTERNATIONAL
RACING PIGEON FAIR
Dortmund 2026

9

Olympic Suze is now the third pigeon from this loft to represent the Netherlands at the Olympiad.

Her pedigree shows that her father is a son of "Blue Brave", one of the current foundation sires and a top racer. Her mother is a daughter of the inbred pairing father x daughter: "New Harry x Olympic Lieke." In short: the best often come from the best.

Olympic Unlimited Dream

10

♀ NL23-9442506

1. Olympiad Bird Cat. Middle Distance 2026

Léanne van de Pasch and Ricardo Bolhoeve, residing in Grubbenvorst, North Limburg, can once again clear a few spots in their loft for the honors and trophies won by their outstanding hens, "Unlimited Dream" and "Bella Ben."

Unlimited Dream is a true champion. Thanks to her top performances in the middle distance races in 2024 and 2025, she was selected to represent Team Holland. With this, Léanne and Ricardo can now add two new stars to their impressive Olympiad record book. The number of Olympiad pigeons (19), achieved first by the late Jan and now by Léanne and Ricardo, is undoubtedly a record and a unique achievement in Dutch pigeon racing.

Unlimited Dream (ring number NL22-9442506) descends from a remarkable lineage. She was bred from "837" of 2020, also known as "Brother No Limit" (De Bruijn), a brother of their top hen "No Limit," who in 2022 was 1st NPO National Ace Pigeon Speed and ranked 16th Olympiad Pigeon Speed. Her mother, "Tripple First" of 2020, won three 1st prizes and is a daughter of the top breeder "Big Ben" (De Bruijn - vd Pasch) × "Daughter Super Pair" (vd Pasch - Hasendonckx). The genes of No Limit and Unlimited Dream clearly know no limits, producing performances of exceptional quality.

Unlimited Dream is a beautiful blue hen of medium size, fine to handle, with excellent musculature, a closed rump, and a strong, short forearm. Even as a yearling, she was already the favourite of Léanne and Ricardo's eyes, showing clear potential for greatness. She has her own quiet spot on a side perch,

39. INTERNATIONAL
RACING PIGEON FAIR
Dortmund 2026

where she often rests, watches her nest box, and keeps an eye on her cock after flights, a habit that has surely motivated her to return home early.

Her record of achievements is impressive, and next year she will join the breeding loft, continuing the legacy to produce a new "...Limit" pigeon. Like the late Jan, Léanne and Ricardo are masters of the widowhood system (partners at home). Their dream for the future includes winning national titles, adding more Olympiad pigeons, and even a victory at the OLR in Pattaya, Thailand.

Olympic Hakon

♂ NL23-9617687

2. Olympiad Bird Cat. Middle Distance 2026

Alongside Olympic Super Girl, Cor Walda proudly presents another Olympiad pigeon: NL23-9617687, known as Olympic Hakon. This remarkable yearling cock achieved 2nd Olympiad Pigeon, Middle Distance Category, at the Olympiad in Dortmund.

Olympic Hakon forms a natural pair with Cor's other superstar, Olympic Super Girl. The two pigeons were already paired and are not given any special motivation. "Just into the basket on Thursday afternoon and off to Saturday. Pigeons of this class need nothing more," says Cor.

Hakon is intensely focused on his nest and always ready to spar with his handler, in contrast to Super Girl. "She stands out because she never stands out," Cor comments. "Both Olympic Hakon and Olympic Super Girl want to train well, listen carefully, and always present themselves in perfect condition, a true dream pair."

The name Hakon was chosen by Cor's wife. Seeking a name that reflected the character of this true champion and fighter, she suggested Hakon, which in Scandinavian languages means Warrior and Noble Son. A very fitting name for such a top-class pigeon.

During his racing career, Olympic Hakon won 42 prizes from 42 starts, including 17 top-10 finishes and 4 first prizes in the club, proving himself a true fighter. In his pedigree, his father is the top breeder Xavio (Comb. Lokhorst), and his

mother is Tochter Gucci (Mark van den Berg), both of whom have produced multiple top pigeons for Cor's loft.

Having two Olympiad pigeons on the loft is exceptional, and Cor explains the experience best: "It's always special to clock an early pigeon. But with these two champions, the excitement is even greater, wondering if they will again be among the first. Every arrival gives you goosebumps. Their returns were always spectacular, they stormed the loft, never wasting a second to get inside."

Olympic Amber

12

♀ NL23-9099764

3. Olympiad Bird Cat. Middle Distance 2026

Achieving a top-three ranking in any category requires an outstanding performance from both the pigeon and the fancier. For a breeder, this is the ultimate reward. Yet it becomes even more remarkable when it happens in two categories, a feat accomplished by Arnold Paalman of the Eijerkamp–Paalman combination.

Hailing from Laren, Gelderland, Arnold has quickly made a name for himself in the pigeon sport. Passionate and highly skilled, he again produced top results in 2025. In addition to being nominated in the Grown Up category, he also achieved a top placement in the Middle Distance category.

The credit goes to his talented hen NL-9099764, “Olympic Amber”. This exceptional pigeon was named after a friend of a close acquaintance at the fair in Laren. Olympic Amber was flown on widowhood for the regular program races and on a nest for the Natour races.

As a young bird, she was initially thought to be a cock, but she soon revealed herself as a spirited and temperamental hen. She handled the Natour races unscathed and truly came into her own as a yearling, flying each race over a different breeding perch. On the middle distance races, she excelled, achieving 3rd National Ace Pigeon Middle Distance. As a two-year-old, she also claimed 2nd place in a Grand Prix flight within Department 9. Only once during the past season did she arrive late, due to a poorly executed race.

Amber was bred by the Eijerkamp family in Brummen. Her sire, “Silver Dream Jr.”, is a direct pigeon from the famed Leideman brothers of Collendoorn. Her dam, “Semarian”, is a beautiful hen descending from Olympic Hans (Hans Boenders / Theo Hutten) and a daughter of the legendary Jackpot, a world-class breeder directly from Olympiade 003, previously housed with Leo Heremans.

Arnold Paalman successfully qualified two hens for the Olympiad in Dortmund. Excelling with hens is a special skill, and Arnold clearly has it mastered.

Eijerkamp–Paalman

Olympic Super Girl

♀ NL23-9617741

1. Olympiad Bird Cat. Long Distance 2026

The name Cor Walda is no stranger in Dutch pigeon racing, appearing prominently among both national champions and Olympiad representatives. Among his many achievements, the crown jewel is undoubtedly his two Olympiad pigeons, including Olympic Super Girl, the 1st Olympiad pigeon Long Distance in Dortmund.

This exceptional hen, NL23-9617741, has dominated the long-distance races over the past two years. Like all his hens, she is raced on total widowhood, and no special measures are needed to bring out her outstanding performance.

Originally, she was called "Super Girl" due to her incredible form on flights of 500-700 km. Upon returning home, she would swoop straight down like an arrow, prompting the call, "There she is, Super Girl!" With her selection for the Olympiad, she now proudly carries the name "Olympic Super Girl."

Her pedigree is equally impressive. Her father, Luca, is a top breeder and also father to Roxy, the nestmate of Olympic Super Girl, who claimed a 1st Châteaudun (2,201 birds). Her mother, Lena, was 1st Local Ace Pigeon. Looking further back, the pedigree includes numerous top performers from Cor's loft, such as the Dubbele Elfpenner, with 60 prizes including 36 top-10 finishes, as well as multiple champions from Mark van den Berg.

13

Cor himself shares his thoughts:

"Olympic Super Girl is an incredible athlete, especially on the 500-700 km flights, just a truly outstanding hen. In 2024 she performed brilliantly, and again this year she immediately showed her class, taking 3rd place in Gien against 2,770 pigeons on the first long-distance flight. Thanks to the advice from the team at GPS, I decided to keep her home, knowing she had a strong chance to become an Olympiad pigeon. I am grateful to GPS for their wise guidance."

Olympic Legacy

14

♀ NL23-9315575

2. Olympiad Bird Cat. Long Distance 2026

One of the top hens of G. & S. Verkerk is “Olympic Legacy.” Legacy, meaning inheritance, reflects her story: her mother “Mona Lisa” was already at an age when it was not expected she could produce offspring, yet by chance she laid eggs and two youngsters were born. “‘Mona Lisa’ passed on the inheritance of her previous bloodlines,” explains Bas. Olympic Legacy is essentially a surprise gift, and she was raced in 2024 and 2025 on double widowhood.

She is a more affectionate hen, and her striking orange eyes make her immediately noticeable in the loft. Among the group of hens, she blends in visually, but she possesses an extraordinary power, always determined to reach home. She is compact and well-built, a true long-distance pigeon, and never hesitates when returning to the loft.

As a youngster, she performed reasonably well by the Verkerk standards. Over 2024 and 2025, she was recognized as the best Long Distance pigeon in the National Long Distance Ranking, a source of immense pride.

Examining her pedigree, her father “Stranger” descends from “Computer John” (J. van Laar & Zn.) crossed with their “Olympic Solange.” Further back, her lineage includes “Magic Amore” (C. & G. Koopman) and Dght. “Blue Favorite” (W. de Bruijn). Her mother, “Mona Lisa”, descends from the pairing “GPS × Sieka”, with additional bloodlines from Ad. Schaerlaeckens’ “Bubbles” and R. van de Wal’s “Mission Impossible.”

Olympic Legacy achieved remarkable results over two seasons. On long-distance flights, highlights include:

“This hen is one of the stars of our loft, and we are naturally extremely happy with her and her bloodline. Overall, having two Olympiad pigeons is a tremendous satisfaction, and we look back on two truly successful years,” says a delighted Bas.

Gerard & Bas Verkerk

Olympic Maria

♀ NL23-9586661

3. Olympiad Bird Cat. Long Distance 2026

“Personally, I would say that having the honor to send a pigeon to Dortmund is one of the highlights of any fancier’s career.” Klaas Talen from Meppel certainly does not have just any pigeon in his loft. His top hen, now named “Olympic Maria,” has already proven her class: 3rd place in Long Distance, 4th in the Grown Up category, and 9th in Middle Distance. This first-class pigeon carries a name that beautifully combines the two names of Klaas’ daughters, Marlou and Rianne.

Olympic Maria is flown on widowhood, being shown on the Friday races but not during the Thursday training tosses. The reason for this schedule is to ensure she is still free to exercise before being transported and basketed, keeping her routine familiar and stress-free. Upon returning home, the pigeons are allowed to stay together until the next day, a routine that Maria thrives on.

This blue-bar hen is a calm bird in the loft. She is not overly tame, but there is no need to chase her either, as she was raised eating from the hand at a young age. When asked what makes her exceptional, Klaas admits, “I can’t pinpoint what sets her apart.” One clear trait is that she needs a little time to get going at the start of the season, once she’s in form, her results speak for themselves. She is not a pigeon for shows; don’t expect a first prize there. “She’s not a beauty,” Klaas says, perhaps due to her light-colored eye, “but she has nothing wrong with her.”

Her pedigree is impressive. Her father, borrowed from Appie Dunnink, is a full brother to the famous “Feike 010” (Team Wilpstra). This line has already

39. INTERNATIONAL
RACING PIGEON FAIR
Dortmund 2026

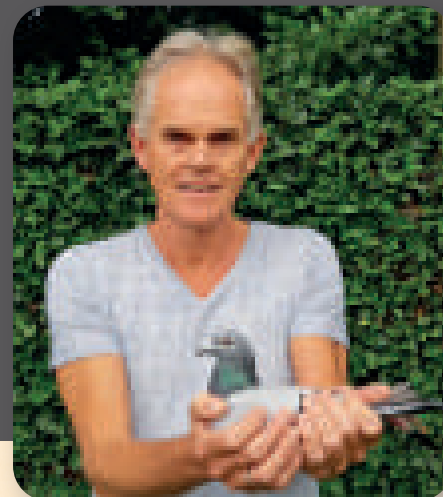

15

produced several Olympiad pigeons. Other notable ancestors include Blauwe Rambo (Ruitenberg) and the famous De Vechter × Stamduivin (Hak) couple. Her mother, obtained from Roelof Coster, descends from the top-performing “Lorris Duifje”, who achieved three Top 10 positions in the national long-distance races. Interestingly, her parents came together by chance, and the best part, according to Klaas: “Both pigeons cost me nothing. It shows you don’t always need to spend a fortune to get top birds. Luck and timing play a big role too.”

Olympic Maria has consistently performed on the long-distance races: 10 starts, 8 times in the top 100 of the division, including a 21st national place against 32,812 pigeons over 706 km. Countless other top prizes underline her quality. After shining in Dortmund, she will earn a well-deserved spot in the breeding loft in Meppel.

Klaas Talen

Olympic Jutta

16

♀ NL23-9218113

1. Olympiad Bird Cat. Allround 2026

“Our hen ‘Olympic Jutta’ is named after the Dutch top ice skater Jutta Leerdam. I have great admiration for elite athletes, and it seemed a fitting name, especially since our hen delivered a truly top-class performance,” says Jannus Kat.

She was raced in 2024 and 2025 on widowhood, with her cock remaining at home. In the loft, she does not stand out visually, nor does she separate herself from the group during training. She does have one flaw: she is not always precise when landing. Sometimes, she will circle a few times or hesitate upon return. Nevertheless, she is well-built, compact, and small, a fine blue-bar hen. Her sister, the ‘114’, is equally talented. Both sisters have now moved to the breeding loft.

“With great confidence, we started the season, especially since we also had a prospective Olympiad pigeon, ‘Milou’. As a yearling, she had flown 6x top-1:1000 and only needed 2-3 more good results to finish first in the speed category. Unfortunately, during a 20 km short training flight, we lost her, never to see her again. That was very painful for all of us. All the more remarkable, then, is that ‘Olympic Jutta’ allowed us to still achieve our goal of having an Olympiad pigeon in the loft, and even a number-one position! We look back on the season with great satisfaction.”

Olympic Jutta descends from a cock whose parents were ‘The Night Watch’ of P. Crans and ‘Albina’s Dream’ of C. & G. Koopman. Going further back, her lineage includes the notable pigeons ‘Rembrandt’ and ‘Dafne-S’ (P. Crans) and

‘Damir’ and ‘Albina’ (C. & G. Koopman). Her mother comes from ‘Kai Verbij’ (Team Kat) crossed with ‘Last One’ (P. Crans). Even further back, we find ‘Arkus’ (P. Crans) and ‘Chloe’ (A. Timmerman).

Olympic Jutta earned the title of 1st Olympic Pigeon Allround 2026. Over two years, she flew consistently at the top.

“Her achievements have been truly outstanding,” says a delighted Jannus.

Team Kat

Olympic Raven

♀ NL23-9195490

2. Olympiad Bird Cat. Allround 2026

It will not have escaped the attention of pigeon fanciers across the Netherlands that father and son Gerard and Harold Calis from Bussum experienced a so-called “Super Year” in 2025, given the remarkable achievements of their pigeons across multiple fronts. Earlier reports have already highlighted their loft performances, championships, and titles. Now, attention turns to their impressive ranking at the International Racing Pigeon Fair in Dortmund, where their hen “Raven” excelled in the All Round category.

As has been noted previously, Gerard and Harold leave nothing to chance. Every day, they provide meticulous care for their colony. During a recent loft visit, it became abundantly clear how much attention and effort is devoted to ensuring the pigeons’ comfort and well-being. Every detail is carefully managed, from housing to feeding and general care.

Their red bird, NL.2023-9195490, known as “Raven”, is a prime example of their dedication. When asked about the origin of her name, Harold admitted there was no particular reason, sometimes a name simply comes naturally, and from the very beginning, she was called Raven by both father and son. Raven is a true sporting pigeon, raced on total widowhood. However, the Calis team emphasizes that her early successes are not only due to her devotion to her cock. They are convinced that her overall care, loft environment, and daily attention play an essential role. Being raced on total widowhood, there is no preferred nest setup for her.

39. INTERNATIONAL
RACING PIGEON FAIR
Dortmund 2026

17

Her character can be described as calm and unassuming. In the loft, she blends in with the others, except when Gerard and Harold give her extra attention in recognition of her outstanding performances. In addition, she earned the title of 1st Provincial Ace Pigeon Day-Long Distance.

Examining her pedigree, we see that Raven descends on her father's side from NL.2021-1058429 “Rhodium”, carrying the bloodlines of Marcel Sangers and Dirk van den Bulck. On her mother's side, she descends from NL.2017-1115016 “Nicky”, which includes bloodlines from J. and K. Lotterman and again Marcel Sangers.

G. & H. Calis

Olympic Penny

18

♀ NL23-9315368

3. Olympiad Bird Cat. Allround 2026

Bas shares: “Our hen ‘Olympic Penny’ received her name from my sister Rosalie, who often finds inspiration for names from TV series and films. Penny is a character from The Big Bang Theory.”

“As a young bird, Olympic Penny did not perform exceptionally, but by our standards, she was good enough to pass the selection. She was raced in both 2024 and 2025 on total widowhood. She is a fairly unassuming pigeon, not shy, just unobtrusive. She is compact and well-built. In the loft, she keeps an attentive eye on everything and everyone, a sign of a pigeon in form. During training, she never strayed from the group and returned calmly with the rest.”

On August 9, 2025, she scored a good result for Olympiad points, but a week later she did not return from Quievrain. After four days, they received a message that she had arrived at the loft of Dries Ingels in Eeklo, Belgium. She had flown there with a broken wing, demonstrating power to reach the loft. It turned out she had been struck by the blades of a nearby wind turbine. Bas immediately drove to collect her.

Now, Olympic Penny still flies around the loft but will never race again. She will join the breeding loft, as she is truly a pigeon with character.

Her pedigree is impressive: her father comes from the pairing ‘Miles’ ×

‘Magic Rock’ (Embregts–Theunis) against one of their own hens. Further back, her lineage includes ‘Magic Amore’ from C. & G. Koopman. Her mother comes from ‘Fabio’ × ‘Fantasy’ (Leideman brothers) crossed with their own line.

“Even though she can no longer compete, she has earned her place in the breeding loft, thanks to her incredible determination and outstanding pedigree,” concludes Bas.

Gerard & Bas Verkerk

Olympic 431

♂ NL22-2210431

1. Olympiad Bird Cat. Marathon 2026

Rien van Beers has a truly exceptional pigeon under his care. Of course, only an extraordinary bird can earn a spot at the Olympiad, no ordinary pigeon will do this. His NL22-2210431 achieved the remarkable feat of winning first prize three times in the NPO Race!

The '431 is a chequer pied cock, along with a few white tail feathers. He has a lot of power in his wings. When opened, the wing impresses immediately, seemingly made of steel. Rien has never seen such strength before. On top of that, this bird possesses remarkable night vision, a quality that explains why he frequently flew through the night.

Rien bred this champion from a cross between Cor de Heijde and fellow clubmate Comb. de Bruijn, mixed with his own bloodlines, which also include the illustrious duo Geert and Anton Kouters from Noordhoek.

Rien does not give names to his pigeons, only ring numbers. In his description, the 431 is a calm, unassuming bird, though always eager to hop onto Rien's knee for a treat. Raced in the classic widowhood system, the cock is particularly devoted to his hen, always flying home at full speed to see her. His power is especially evident on marathon flights. At Bressols, he landed flat on the antenna, finishing more than three-quarters of an hour ahead of the second pigeon. In the last Bergerac, it was almost a photo finish, but he still secured victory with just over a minute to spare.

As a two-year-old, the 431 returned somewhat battered from Bressols, fortunately only a few feathers lost. He learned from that experience and

39. INTERNATIONAL
RACING PIGEON FAIR
Dortmund 2026

19

went on to win the next three marathon flights. So three times a 1st NPO on the marathon, it's never happened before in the Netherlands.

Rien always showcases the hen first. They are allowed half an hour free in the loft before being paired together for another half hour, a method he has practiced for years with great success. According to Rien, if the hen disappoints, it's nearly impossible to succeed.

Today, Rien proudly owns one of the finest marathon pigeons ever seen.

Rien van Beers

Olympic Gerlize

20

♀ NL21-1526187

2. Olympiad Bird Cat. Marathon 2026

Karst began racing pigeons in 2005, and two years later his father, Siem, joined him. Since then, they have formed a close racing partnership. At 72 years old, Siem has been retired for five years, while Karst, 40, works as a team leader in painting at a property maintenance company. Both men can be best described as dedicated fanciers, in the most positive sense. Working with the pigeons in the evenings provides them both relaxation, and the club life remains an important part of their hobby. Their personal focus is on the marathon flights.

Their absolute star over the past years has been NL21-1526187, affectionately named "Gerlize" after Siem's youngest granddaughter and Karst's niece. Gerlize is a hen, small and light, yet perfectly formed, everything a top-class pigeon should be. She is easy to handle and a true fighter when it comes to her nest. She prefers a nest on the floor, tucked into a corner of the loft, where she guards her eggs fiercely. Like all marathon pigeons at the family, she is raced on eggs, never on youngsters, and only allowed to raise youngsters after the Marathon season. For motivation, two days before basketting an extra egg is added so that she usually goes to the race with four eggs.

On training flights, Gerlize is always punctual, has never returned injured, and behaves quietly without any fuss.

Her pedigree is impressive: two great-grandmothers won 1st and 2nd National Aurillac, and a full brother of Gerlize already placed twice in the Top 10 in the National Races. Her lineage also features numerous top performers from Nico Volkens.

Naturally, Siem and Karst are immensely proud of Gerlize. In their own words: "These are the performances you race for, and every time we see her home, a fist is clenched in excitement."

Siem en Karst Kolk

Olympic Gehamerde Witpen

♂ NL23-9168964

3. Olympiad Bird Cat. Marathon 2026

This two-year-old cock goes by the name “De Gehamerde Witpen”. As a young bird, he did not immediately stand out. According to Jay’s memory, he was trained carefully during the youngsters flights, although exact details are hard to verify, as sometimes no timing module is used during the initial training of young pigeons.

Because the focus is primarily on long-distance flights, older pigeons are prepared for Sprint & Middle Distance races on widowhood. Even whether the pigeons are shown before basketting is optional. Once marathon flights come into focus, the pigeons are paired and placed on a nest setup suitable for them. In 2025, as a two-year-old, the “964” was basketed on eggs for St. Vincent and Bressols and on young birds for Bergerac.

Jay has had great confidence in this cock from the beginning. As a yearling, he returned home very strong from Périgueux, achieving a respectable 163rd place out of 7,954 pigeons in the National Race, and from Bergerac, he placed 274th nationally out of 28,447 pigeons. On all flights, the 964 arrived fresh and lively, demonstrating his enduring vitality.

His bronze medal was earned through outstanding national-level performances in 2025:

- St. Vincent: 34th out of 10,262 pigeons
- Bressols: 71st out of 18,140 pigeons
- Bergerac: 44th out of 21,025 pigeons

39. INTERNATIONAL
RACING PIGEON FAIR
Dortmund 2026

21

Jay and his partner Kitty enjoy this cock daily. He is calm in the loft yet clearly present, easily recognizable during training by his distinctive white feathers on both wings. It is often said that a top pigeon always “wears its best suit”, and this certainly applies to the 964. From a young age, he has been tight-feathered and full of vitality.

His impressive performance is no surprise given his lineage. On his father's side, he descends from NL.2017-1154871 of Nico Volkens, a pigeon with a long list of top marathon results. On his mother's side, he comes from NL.2019-1502459 of Juriaan van Amerongen from Bunnik, whose achievements include 2nd National from Marseille in 2021, as well as top results from Périgueux and Bergerac.

♂ NL25-1381910

1. Olympiad Bird Cat. Youngsters 2026

The 2025 young pigeon season will long be remembered by the fanciers of Team GPS. Not only was it an excellent year overall, but they also housed the best young pigeon for the Olympiad in Dortmund, and the 1st World Best Pigeon 2025. Truly a “special one” as Lex himself describes him.

This young cock astonished the pigeon world with his outstanding results:

1st National Grand Prix Lorris against 4,650 pigeons

1st NPO Grand Prix Sens against 2,689 pigeons

2nd NPO Laon against 4,889 pigeons

Such achievements for a young pigeon are truly rare.

The name practically chose itself. Each year, several young birds are transferred from Jan Hooymans to Team GPS's lofts in Elshout. This pigeon, NL25-1381910, was bred in Kerkdriel by Hooymans, so the name Jan, later Olympic Jan, was a natural choice. He descends from the renowned Hooymans dynasty: his father is NL22-8560939 “Son Blue Brave”, bred from Blue Brave (Christian van de Wetering) × daughter Alexia, while his mother is NL22-8560431, a daughter of New Harry × New Harry's Sister.

Caretaker Bernard van Derle recalls:

“At first, he didn't stand out. He had no fixed place in the loft and no hen when we separated them. In my opinion, he flew purely on his own qualities. He only drew attention when he won the 1st NPO Grand Prix Sens. That's when you start asking:

who is this, where does he come from? In the week before Lorris, Lex decided to give him a little extra motivation. Each evening he was placed alone with the hens, and according to Lex, he even crawled under a box with one hen. The result was spectacular: 1st National Grand Prix Lorris. Whether he actually had a hen, I don't know, after the race we let the pigeons together for a few days, and he was simply back on his perch in the loft. So in my view, it's purely the quality of the pigeon itself that made the difference.”

Team GPS

Olympic Danny

♂ NL25-1542226

2. Olympiad Bird Cat. Youngsters 2026

The well-known brothers André and Bert Leideman from Collendoorn have claimed the title of 2nd Olympiad Bird Youngsters in Dortmund. The official result took some time, and as they say, “seeing is believing,” but the brothers truly achieved it.

The young cock is known as “Olympic Danny”. He was bred by Daan Nijboer. “We sent the grandparents of this young cock to our pigeon friend Daan. He bred youngsters from them, and they were on his breeding loft. These grandparents have now returned to our loft. As thanks, we received six of the offspring back to race, and he was among them!”

For every pigeon that goes to the breeding loft, the brothers insist on a DNA test to be absolutely certain of the parentage, and the same was done for Olympic Danny. His paternal grandfather is “Adam”, who descends from the famous Goed Grijs and has already sired several top racers. The paternal grandmother comes from the well-known “Jet”. His mother is 50% Gebr. v.d. Brande, sharing the same line as Goed Grijs, and on the other side comes from the famous “Crack 19” and “Raissa”. In short, many of Leideman’s renowned pigeons are present in this champion.

This year, extra attention was given to the underappreciated youngsters. They received a new loft, with a darkened setup, and midway through the season, the loft was largely separated. Yet, Olympic Danny had already proven himself with top performances: 1st Marche against 9,246 pigeons, 5th Weert against 10,453 pigeons, and 2nd Kerkrade against 3,315 pigeons. Interestingly, on the first training flight, the brothers randomly entered 10 youngsters, including him,

23

and on the second training flight, only a few were released, again including him. Perhaps this helped him warm up perfectly for the early races!

Olympic Danny is a calm young cock, neither shy nor bold. He charts his own course and doesn’t stand out in the loft, and that is a quality in itself. For the brothers, it’s not about titles or championships; it’s about having a truly exceptional pigeon that consistently delivers top performances. Nevertheless, a title like 2nd Youngster Dortmund is a wonderful bonus, and one they are rightfully proud of.

Olympic Quattro Champion

24

♀ NL25-1315612

3. Olympiad Bird Cat. Youngsters 2026

Once it became clear that the “612” was in exceptional condition, proving it week after week upon her return from the races, father and son Lin quickly gave her the fitting name “Quattro Champion.” It was remarkable to see how consistently she performed, especially considering she had no nest position and wasn’t even paired. Her drive to race home came from one simple motivation: her absolute obsession with her own little perch, a sacred spot she refused to share with any other bird. She wasn’t raced on nest or pairing strategies; her strength came purely from her territory near that perch.

This blue hen is naturally calm, yet possesses an extraordinary homing instinct. While most young birds first land on the roof before dropping into the trapping system, Quatro Champion had a completely different approach from the very beginning: she would plunge out of the sky like a cannonball straight onto the landing board, determined not to lose a single second. Inside the loft she hardly stands out, except for the fact that you never have to search for her. When the youngsters are walking around, she is always exactly where she wants to be: on her perch.

After several races, father and son Lin noticed that this hen always rushed into the loft with unusual urgency. For her final race of the season, they decided to keep the camera ready to capture it. And to their great pride, she once again dropped like a lightning bolt from the sky, hitting the board in one motion and trapping instantly, fortunately after being clocked first.

39. INTERNATIONAL
RACING PIGEON FAIR
Dortmund 2026

Throughout her upbringing, weaning, and training, she never showed anything special, other than always appearing perfectly dressed in her beautiful plumage. Yet looking back, everything falls into place. Quatro Champion descends on her father's side from one of the best lines of Rik Hermans, while her mother originates from a co-breeding between Lin and Willem de Bruijn. In other words, she carries the power of four exceptional grandparents.

Son Jiabin insists that a little bit of luck is always needed to win a national pigeon championship.

Olympic 700

♀ NL24-8520700

1. Olympiad Bird Cat. Yearlings 2026

Four years ago, Dré Gommers moved from Achtmaal to Zijtaart. While he could hold his own in Department 2, he now has more time to dedicate to his pigeons, and the results are clear. Week after week, he consistently ranks at the top of the results. A prime example of this is his blue widow hen 24-8520700, although he has several other strong pigeons as well.

According to Dré, the '700 is a "normal" pigeon, unremarkable in the loft except when returning from a race. When she needs to be urged to fight for her position, she consistently comes over the same tree and when she does, she is always early. With a west wind, however, she can perform a little less optimally. Her two-year-old sister, '742, also always returned over the same tree and performed well even with wind at her back, as demonstrated by her 1st prize in Flight Area 4 from Laon last year with 1,600 mpm. Both pigeons are real champions, bred from a cock of Kris Van Massenhoven from Retie, Belgium, and a hen of Dré's own breeding.

This season, the '700 placed seven times in the top 100 in Flight Area 4. As a young bird, she won only a few prizes, but she was punctual on two occasions. Dré has had his pigeons evaluated by Gert Jan Beute for several years, who has a keen eye for quality. "He can pick out the good ones," says Dré. As a young bird, she already scored 8+, and this year even received an 8.5, the highest score Beute awards. "He held the hen for a long time and was very impressed with her," Dré adds. "Something special." And indeed, she is.

39. INTERNATIONAL
RACING PIGEON FAIR
Dortmund 2026

25

Dré races his pigeons on total widowhood, and the hens perform noticeably better. They are raced under what he calls 'chaos', as he has ten to twelve more hens than cocks, which only heightens the rivalry when they return home.

Of course, you need to keep a close eye on them. For Dré, the social side of the club is also important, something he always looks forward to. He is undoubtedly proud of the performance of his '700. Achievements like this are often once-in-a-lifetime experiences, and the word is enjoyment. She may no longer race, but as a reinforcement in the breeding loft, she remains invaluable.

Olympic Haaland

26

♂ NL24-8436709

2. Olympiad Bird Cat. Yearlings 2026

For any pigeon fancier, being selected to represent the Netherlands at the Olympiad is a major milestone in their career. Yet, to be chosen in three different classes is a true rarity, an exceptional achievement that happens only occasionally. In February, this dream will become reality for father and son Lin from Rijnsaterswoude.

They will compete with pigeons in the Youngster class, the Yearling class, and the Long Distance 1-year class. Their cock, “709”, now proudly named “Olympic Haaland”, finished second in the Long Distance 1-year class.

At home, this cock is relatively calm in the loft, yet when handled he wriggles persistently until released, a pigeon with character, indeed. Weekly, he demonstrates exceptional motivation to return home quickly, a trait he has shown since he was a youngster, immediately earning him a spot among the favorites of father Yong and son Jiabin.

Olympic Haaland is raced on total widowhood, and it so happens that his hen is equally determined. Each week it is a question of who arrives first. When “709” gets home first, he remains restless until his hen arrives. Fortunately, his mate is often found near the top of the results, allowing her to give him a proper welcome.

Examining his pedigree, on his father's side we find “Jackie” NL19-1695672, an all-round flyer with numerous prizes at multiple levels. On his mother's side, he descends from NL2020-1775642, a sister of “Uranus” from Willem de Bruijn. Wout de Vries

Comb. Lin

Olympic Simone

♀ NL24-4037091

3. Olympiad Bird Cat. Yearlings 2026

In the Brabant village of Escharen, an Olympic pigeon has now also found her home. The chequer hen “Olympic Simone” is named after Geertjan’s wife, and has developed into one of the standout performers of the loft.

“She is a beautiful pigeon in the hand,” Geertjan explains. “Not too big, not too small, exactly the type that fits perfectly within our colony.” As a youngster she did not particularly stand out, winning only four prizes. In 2025, however, she was raced on total widowhood, and her true quality came to the surface. In the CC Uden, she was crowned 2nd Best All-Round Pigeon, a very good achievement.

“Olympic Simone” is a real favourite in the loft. She is very attached to Geertjan and is not afraid of his young son either. She comes toward them freely, and if you sit down in the loft with some peanuts, she will almost certainly come and sit beside you. During training she does not stand out; she simply flies along with the group. On race days, however, she enters the loft very quickly, though, as Geertjan notes, speed at entry is a general characteristic of his pigeons. The pigeons are trained to rush inside at the sound of a bell, which he sometimes activates remotely via his mobile phone when observing arrivals from a distance.

“Olympic Simone” is very alert inside the loft. Her best performance was a 6th Issoudun ZAC against 9,464 pigeons, and she has proven her versatility from sprint races through to the day races. Among her other notable results are:

According to Geertjan, his father Gerrit has now made it very clear that “Olympic Simone” will no longer be raced. “You don’t have many Olympic pigeons in your loft,” he says, “and this is one to cherish.”

27

Looking at her pedigree, we see that her sire is “Gradje”, originating from the late Jan van de Pasch. Further back in the bloodlines appear well-known names such as “Jupiter” and, from W. de Bruijn, “Leanne 104”. Her dam is a half-sister to ‘Super Jip’. The parents of the dam are a Son of Jupiter (Jan van de Pasch) paired with the dam of “Olympic Jip”, combining the strains of Team Schilders, their own family line, and the late Jan van de Pasch. A pedigree filled with top performances and championship quality.

“We are extremely happy with ‘Olympic Simone’ and feel truly honoured to have achieved this Olympic title,” Geertjan concludes.

Olympic Evelyne

28

♀ NL22-8229086

1. Olympiad Bird Cat. Grown Up 2026

When we speak of the Eijerkamp–Paalman partnership, our focus is on Arnold Paalman. He is the driving force behind their loft at his farm in Laren, and thus responsible for the outstanding results of this team. Arnold, 35 years old, was born and raised in Laren, Gelderland. He is fortunate to work professionally in pigeon racing, overseeing the breeding pigeons at Geenfield Stud, the family Eijerkamp's breeding center in Brummen.

Arnold has become well-known in Department 9 as a passionate fancier, achieving amazing racing results. Countless victories, consistently high prize percentages, and numerous series wins mark his career. In 2025, his pigeons continued to shine nationally, culminating in a nomination for Best Pigeon in the Grown Up Category.

The star behind this honor is NL22-8229086, "Olympic Evelynne". This exceptional hen earned her nomination for the Olympiad in Dortmund through remarkable performances. Her name was chosen at random, as is the case with most of Arnold's pigeons. She races on double widowhood, and to excel in this system she required no extra motivation.

Evelyne is a relatively small pigeon with understated behavior, yet fiercely competitive on her nest. Remarkably, she has consistently flown to the top on both sprint, middle and long-distance races. Her career has been virtually unblemished: as a young bird, she completed 10 races; as a yearling, and again as a two- and three-year-old, she competed almost every weekend, rarely missing a prize. Most importantly, she accumulated numerous top prizes, which were key to her status as an Olympiad pigeon.

Evelyne was bred by the Eijerkamp family. Her father, Olympiade Stefaan, is a top breeder and sire of multiple first-prize winners in large competitions. He descends from the renowned Nieuwe Olympiade (Leo Heremans) and Bonte Stefaan (directly from Stefaan Lambrechts) and was raced by the Eijerkamps. Her mother, Roulette, was 4th National Ace Pigeon at the PIPA Rankings, with lineage 50% Leo Heremans and 50% Stefaan Lambrechts.

For the past season, Arnold was particularly motivated to have a pigeon selected for the Olympiad. Achieving this with two pigeons has been a dream come true for him.

Eijerkamp–Paalman

Olympic Queen Max

♀ NL22-8201980

2. Olympiad Bird Cat. Grown Up 2026

Cor den Ouden Jr. is by no means a stranger to the pigeon sport. Each year, he consistently achieves impressive results and championships. Now 68 years old, Cor has been keeping pigeons since he was just ten. In October 2024, Cor suffered a heart attack, which means he must take things a bit easier. He competes in all racing categories except the International Marathon races. His loft is primarily stocked with pigeons from Ad Schaerlaeckens and a few other top breeders. Also Cor has multiple pigeons from Christian van de Wetering and Team Hooymans.

The NL22-8201980, honored as the 2nd Olympiad Pigeon "Grown Up", was originally named Queen Max. This striking yet otherwise unassuming hen was named, as you might expect, after Queen Máxima of the Netherlands. With her participation in the Olympiad, she will now be known as Olympic Queen Max.

Olympic Queen Max is raced on double widowhood. Occasionally, the cock is kept at home if the hen performs exceptionally, a strategy that has also been applied with Olympic Queen Max. According to Cor, her motivation, natural talent, and excellent care are the three essential ingredients that have brought her such remarkable success.

Her pedigree is largely from the lines of Ad Schaerlaeckens. She is a grandchild of the 250 x 668 pairing from Ad, lines that have already brought Cor considerable success.

29

It is easy to understand that Olympic Queen Max has provided both excitement and joy to everyone involved. Cor describes it best himself:

"Every time Olympic Queen Max returns home, there's that moment of suspense, will she do it again? And when she dives down, I am always amazed to see her at the front. For good measure, I go check the loft to make sure it's true. And now, even at the Olympiad... I'm still in awe. Years ago, my goal was to reach the champions in our local club, region, and NPO. But now, even among the national champions, competing alongside breeders I respect so deeply... it's an incredible feeling! Finally, I would like to thank Ad Schaerlaeckens once again for Olympic Queen Max."

Cor den Ouden Jr.

Olympic Bella Ben

30

♀ NL22-8594357

3. Olympiad Bird Cat. Grown Up 2026

Léanne van de Pasch and Ricardo Bolhoeve from Grubbenvorst achieved remarkable success last year by qualifying two hens for the 39th International Racing Pigeons Fair 2026 in Dortmund. Both pigeons are classified in the Middle Distance & Grown Up categories.

One of these outstanding hens is "Unlimited Dream", representing Team Holland in the Middle Distance category. The other hen, a splashed white-flight bird, is "Bella Ben", carrying ring number NL22-8594357, and she represents Team Holland in the Grown Up category.

Beyond her selection for the Racing Pigeon Fair, Bella Ben excelled throughout the season, winning multiple championships at the highest levels. She was crowned 1st National Ace Pigeon Sprint Races 2025, having finished 6th National Ace Pigeon Sprint Races in 2024. Within the North Limburg racing district, she secured six top prizes, which also contributed to her selection for the Racing Pigeon Fair.

Bella Ben comes from remarkable bloodlines. Her father is "144" (Brother Leanne 104, 2017), a proven top breeder from De Bruijn. Her mother, "Jolijn", descends from "Zoon Olympic Hurricane" x "Dochter Jupiter" (v.d. Pasch - De Bruijn - Hasendonckx). Jolijn is a full sister of the current top breeder "Big Ben" (2018), who is already the grandparent of numerous 1st prize winners and Ace pigeons, including 1st Final Kaier OLR '24 (5,575 birds) and 1st Ace pigeon (2 flights) Kaier OLR. It is clear that Bella Ben inherits the best qualities from this remarkable family. Notably, Big Ben also appears in the pedigree of Unlimited Dream (maternal grandfather), linking these champions in blood.

The name "Bella Ben" carries this heritage with honor, reminiscent also of Ricardo's late father, Ben. This splashed white-flight hen is elegant and compact, with fine, soft feathers and strong yet supple muscles. She has intelligent, alert eyes and a calm, easy-going temperament, though she blends in naturally among her loftmates.

Next year, Bella Ben will move to the breeding loft. Léanne and Ricardo continue to excel with widowhood hens (partners at home), a method they execute with exceptional skill. Naturally, they are extremely proud of this achievement.

Congratulations to Léanne and Ricardo on yet another extraordinary season!

Team v/d Pasch

Olympic 933

♀ NL23-9168933

1. Olympiad Bird Cat. Long Distance 1 Year 2026

In the Long Distance 1 Year category, all attention goes to the striking blue check hen NL.2023-9168933. When asked if this exceptional performer had her own name, Jay responded matter-of-factly: "We don't really do that. We (Kitty and I) are very practical, we just call her '933.'"

Her achievements speak for themselves. At the Provincial level, she became 1st pigeon champion, and at the national level, she earned 2nd National Ace pigeon honors in the marathon.

In the loft, she is not a particularly flashy pigeon, except that she is always neatly feathered, always wearing her best "suit." After being properly trained, she was put on eggs for the marathon races, recording two top finishes on eggs aged 10 to 14 days and one on a week-old youngster. Expectations for her were high, as she had already been first back to the loft at least five times as a yearling, and in 2025, she consistently ranked among the leaders in the preparation flights.

Examining her pedigree, we see that on her father's side, she descends from NL.2014-1352499, a breeding collaboration between Jay and Jurrian van Amerongen. On her mother's side, she comes from NL.2016-3602273 (Comb. Vromans), which Jay had on loan from Comb. Steenbeek.

All pigeons train daily in the afternoons; however, when temperatures are too high, the older pigeons are flown in the early morning, initially with the loft door

39. INTERNATIONAL
RACING PIGEON FAIR
Dortmund 2026

31

closed and, at the start of the season, if necessary, even under a flag. Pigeons scheduled for an upcoming race are often given additional training flights the preceding weekend.

Kitty's contribution to the care of the pigeons should not be underestimated. She is deeply committed to the well-being of every bird and provides invaluable support to Jay. The year 2025 proved to be a true "Super year" for Jay, a year he can look back on with pride and satisfaction.

Olympic Liu Liu Liu

32

♂ NL24-8436666

2. Olympiad Bird Cat. Long Distance 1 Year 2026

In addition to their participation in the Olympiad class for Youngster and Yearling, father and son Lin now also compete in the Olympiad class Long Distance 1-Year category. Representing the Netherlands are their pigeons NL.2025-1315612, NL.2024-8436709, and in the Long Distance 1-Year class, their cock NL.2024-8436666.

When the 2025 season began, nothing suggested that this yearling cock would establish himself among the very best in the Netherlands for long-distance flights. His performances on the Sprint & Middle Distance races were still a work in progress. However, once the long-distance races came into play, the "Liu Liu Liu" revealed an extraordinary capacity. From the first race to the last, he consistently delivered top performances. His results at the national level clearly reflect his rising quality.

On January 20, the "Liu Liu Liu" was paired with his hen and, at the start of the season, was kept in the dark until May 1. His pedigree is equally impressive: on his father's side he descends from Major-General NL.22-8483351 (W.A. de Bruijn), and on his mother's side from NL.23-9137911 (G. & S. Verkerk).

Prior to being caged for the races, he was not shown to his hen. Only after returning home from a flight was he reunited with her, enjoying several hours together before being separated again. Observing his pedigree provides yet another proof that exceptionally good pigeons often descend

RACING PIGEON FAIR
Dortmund 2026

from exceptional bloodlines. That excellence and beauty can go hand in hand was immediately evident during a loft visit, when I had the chance to hold "Liu Liu Liu" in my hand, it was clear that this cock will also score highly in the loft.

During my visit, I experienced first-hand the pride and excitement of Yong and Jiabin, knowing that they are sending three pigeons to represent the Netherlands at Dortmund.

Race			Distance	Prize	Pigeons	Coefficient

Olympic Dagfond Lady

♀ NL22-2714472

3. Olympiad Bird Cat. Long Distance 1 Year 2026

In the German town of Brual, just across the border near the Netherlands, lives Winfried Helmerichs. For several years he has competed in Department 10, achieving remarkable success.

This year, Winfried managed to qualify his exceptional hen, "Olympic Dagfond Lady", for the Olympiad in Dortmund in the Long Distance 1 Year category, finishing 3rd. Her name perfectly reflects her outstanding achievements: a gold medal in Department 10 North at Sens against 1,300 pigeons, a silver medal at Sourdun against 1,462 pigeons, and a bronze medal at Issoudun against 571 pigeons. And the distances were no small feat: 612 km, 577 km, and an impressive 780 km.

What makes her perform so well? According to Winfried, it is mainly her calm and relaxed demeanor in the loft. Beyond that, he could not identify any special behavior or motivation; she simply is a perfectly built pigeon. She has a soft, well-kept plumage, a medium build, flexible muscles, and excellent balance, combined with notable intelligence. Another fun trait: while most hens finish training after an hour, Olympic Dagfond Lady often continues to fly solo for 30-45 minutes, enjoying her own flight.

Her Olympiad potential is in her blood. Her dam, "Hanne", named after Winfried's wife due to her beauty, is the granddaughter of Olympic Blue, an Olympiad winner in Poznan, and was acquired from friend Dirk de Beer. Her sire, "Boss",

39. INTERNATIONAL
RACING PIGEON FAIR
Dortmund 2026

33

with a strong character, is already a true foundation bird, directly descended from Luc de Laere's breeding pair.

Winfried recalls: "Forty years ago, I attended the Olympiad in Dortmund with my brother. Back then, my greatest wish was to have a pigeon of my own there. It took some time, but my dream has finally come true!"

Race			Distance	Prize	Pigeons	Coefficient
08-06-25	E23	Sens	612.918	1	1300	0.769
24-05-25	E21	Sourdun	577.497	2	1462	1.368
05-07-25	E27	Issoudun	780.117	3	571	5.254
			1970.532	3		7.391

Jan Hooymans

34

The “Harry–dynasty” from Jan Hooymans is one of the strongest and probably the most wellknown pigeon bloodline in the sport. At the Hooymans breedingloft you’ll find only first–class pigeons. Jan Hooymans is racing and testing his pigeons at his racelofts in Netherlands (J. Hooymans & Team Hooymans NL) and in Belgium (Team Hooymans BE and Team Hooymans WVL) to find the best breeders and racers as quick as possible. In just a handful of years, Hooymans won 11 times 1st National KBDB and now 2 seasons in a row Hooymans has a 1st National Acepigeon KBDB. Season 2025 was special also for winning the 1st National Barcelona in the Netherlands. Be welcome to visit our breedinglofts in Kerkdriel (NL) to see and feel our exceptional quality pigeons.

Peter Crans

36

Peter Crans, based in Den Helder, consistently excels in Dutch pigeon racing, with his loft achieving top provincial, NPO, and national results. His iconic foundation pigeon, Rembrandt, is the sire of numerous national ace pigeons and champions, including Hanna Mae and Lieke. Rembrandt's descendants dominate distances from sprint to long distance, winning provincial and national titles. The references list of the Crans' loft is big, with top fanciers like Team Kat, Arie Dijkstra, Bram ten Klei, and others achieving national victories with pigeons from this strain.

Lucie van Es Pigeons

Breedingloft with elite pigeons...

38

At **Lucie van Es Pigeons**, the loft is built exclusively with the finest breeding and racing pigeons from the Netherlands and Belgium. Each bird in the loft is carefully selected for breeding top pigeons. We are proud to present a selection of our elite pigeons, with on the breeding loft a/o:

Van Den Bulck:	Son of Kittel & Daughter of New Kittel
Erik Limbourg:	Son of Geeloger x Lady Hawk
Eijerkamp:	Son of Olympiade Stefaan x the phenomenal Zoe
Leideman:	Son of a super breeding pair Viton x daughter of Goed Grijs.
PIPA Elite Center:	Son of Porsche x Louise.
C & G Koopman:	Son of Coby x Thaisa.
Vrancken-Berden:	Inbred son & daughter of Olympic Rico.

The Dutch Pigeon Racing Association (NPO) is proud to sponsor the movie The Pigeon Mission.

The Pigeon Mission is a moving story about family, loss, and reconciliation. Fenna, a curious teenager, discovers a carrier pigeon that takes her on an emotional adventure to restore the lost bond between her grandfather Henk and her father Bob.

DHP CULTURA HOLLAND

VOOR NATUURLIJKE BALANS

49

DHP MIX

Complete Mineralenmix met Oregano en speciale Eiwitkorrels als extra toevoeging.

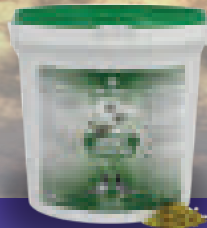

VERKERK MULTI POWER MIX

Complete mineralenmix aangevuld met hoogwaardige zaden welke in overleg met Gerard en Bas Verkerk is samengesteld zoals zij dit al jaren alle dagen aan hun duiven naast de dagelijkse voeding verstrekken.

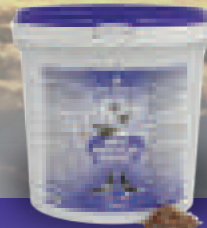

SUPER BIOMIX

Mineralen speciaal ontwikkeld voor oriëntatie en spijsvertering. Verkrijgbaar in emmers van 5 en 10 ltr.

ENERGY POWERMIX

Kracht- en opfokvoer met belangrijke grondstoffen voor de opbouw van de conditie, vetreserves, eetlust en vitaliteit. Duiven worden voller en ronder en het wordt tevens gegeven aan de jonge duiven in het nest en na het spenen, voorkomt natte, platte mest die veelal wordt veroorzaakt door te veel water drinken van de ouders.

MULTI MINERALEN MENGELING

Meest uitgebreide mineralen mengeling waarin melkzuren en probiotica zijn verwerkt ter ondersteuning voor de spijsvertering. Voorziet in alle behoeftes van de duiven.

MULTILITH

Mineralenmix die aan alle basis behoefte voldoet met pre- en probiotica als extra toevoeging.

EXCELLENT BLEND

Complete mix van mineralen, zaden en kruiden, samengesteld in samenspraak met Team Eijerkamp en Arnold Paalman. Kan ook als de z.g. Ochtendmix worden gegeven. Verkrijgbaar in emmers van 10.2 ltr.

RACING BLEND

Ongekend in samenstelling die gericht is om de spijsvertering, de conditie en de verzuring van de spieren die optreedt tijdens de vluchten langer uit te stellen. Verkrijgbaar in emmers van 10.2 ltr.

Sabrina Brugmans

50

From Halen, Belgium, Sabrina Brugmans and Stephan Machiels have risen to the absolute top of international pigeon racing. Their achievements speak for themselves: multiple National Ace Pigeons, three Olympic pigeons, and victories in the prestigious Gouden Duif and National KBDB Championships. In recent years, their loft dominated with titles such as 1st, 3rd, and 4th National Ace Allround Youngsters and 1st National Ace Great Middle Distance. They did this with elite pigeons like Conner, Olympic Britt, Olympic Louise, Luca, and Hanne. Few fanciers in Belgium can match their record of National championships and ace pigeons.

52

Willem Tiellemans

A young and highly motivated pigeon fancier with a strong passion for marathon races. For many years, he has been competing at the very top level of this demanding discipline. With pigeons such as his renowned “Wout,” he has built an exceptionally strong bloodline, achieving notable successes not only in Schaijk (NL) but also at many other lofts. In 2025, he competed seriously for the national championships for the first time, and did so with immediate success, achieving the 6th and 25th National Marathon Ace Pigeon titles in the Netherlands in 2025.

Johan de Vries

From IJsselmuiden in the North of the Netherlands, Johan de Vries has firmly established himself among the national elite. Known for his powerful performances on the toughest races, Johan's pigeons excel when distances are long, temperatures high, and headwinds strong. Racing from a location over 80 kilometres further than many competitors, every detail must be perfect. In recent seasons he achieved 4x 1st NPO and more than 20x Top 10 NPO results, a record that speaks for itself. His standout hen "Valeriia" is his new sensation, claiming victories from Gien and Issoudun against thousands of pigeons. True top-class performances from the North with One Day Long Distance races from 650 till almost 800 km.

Base
breeding hen!

909 Nicole ♀ NL16-1098909

Original Henri van den Berg. Mother & (gr)mother to:

Richard van den Bos

62

Richard van den Bos has been passionate about pigeon racing from a young age. He quickly distinguished himself and joined the ranks of the champions. He achieved several top rankings with, a.o.: “911 Turbo” (3rd National Ace Pigeon), “Lucky 13” (4th National Ace Pigeon), “109” (3rd National Ace Pigeon), and “115” (4th, 8th, 9th National Ace Pigeon). In 2022, he reached a highlight with “Olympic Max” which became the 1st Dutch Olympiad Pigeon Middle distance. In 2025, his career was crowned with the title of National Day Long Distance Champion Nominated.

Sil van Vliet

70

Sil van Vliet (26) is a rising star in the world of international long-distance racing. In just a few years, he has achieved remarkable success, highlighted by his victory in the National Barcelona race of 2024. With several international ace pigeons in his breeding loft, Sil ranks among the most promising talents in modern pigeon racing.

Heinz Hilleke owns one of the most remarkable lofts in Germany. His sharp eye for quality has led him to select pigeons from the very best fanciers, including Gebr. Herbots, Günther Prange, Gebr. Leideman, Willem de Bruijn, Tom van Gaver, and Dirk van Dyck. Heinz also possesses a truly exceptional cock: a direct son of the famous "Di Caprio" from Dirk van Dyck. This breeder is unique in every sense and has already produced three Olympiad pigeons for Germany. The results confirm the strength of Heinz Hilleke's vision.

Champions choose Habru

For more info look at the photobook on:
www.habrupigeonsport.co.uk

Fam. Herbots

SPUTNIKS

Habru **Sputniks**; Developed by and for champions

With the Habru Sputniks 'floppy construction sets' are a thing of the past. Habru developed an innovative product with best quality. With a break-proof glazing and long-welded connections Habru's excels in solidity. All models are suitable for every electronic system of clocking.

AVIARIES

Habru **Aviaries**; Long-lasting and functional Made-to-measure work

Habru aviaries make a difference because of their long-lasting character! A result of welding the modules and using a higher quality type of wire mesh than other aviaries. They can be completely adapted to the wishes of the customer, made-to-measure work is guaranteed! Habru aviaries are more and more regarded as a replacement of traditional pigeon lofts.

AVIARIES

Type **fly-in and out**

Habru **model fly-in and out**; Simple and functional

An aviary and sputnik in one – that is the Habru model fly-in and out. The pigeons fly to the front of the aviary and directly land upon the sputnik, which is integrated into the sloping roof. The sloping roof makes it hard for pigeons to sit on it. For that reason we developed the sputnik as a landing-platform. In this way no time is wasted.

duivensport producten

BELGICA DE WEERD

Dr. Henk de Weerd has been working as a veterinarian specialized in the medical and sport technical guidance of **racing pigeons**. Because of his background, knowledge and experience he has become one of the **leading veterinarians** in the field of racing pigeons, who like his father travels around the world to share his knowledge.

Henk de Weerd is not only a pioneer as veterinarian, but also in the field of the development of **specialized medication and supplements** for pigeons, which are commercialized under the brand name **Belgica de Weerd**. All these products are developed after **private research** and **extensive practical testing** and are produced in accordance with **GMP standards**. Of course all products are **free of doping**.

The **Belgica de Weerd** range is used by pigeon fanciers around the world and this to full satisfaction. The list of **references** of successful and satisfied customers continues to grow steadily and it still remains beautiful to see how many fanciers show their gratitude to Henk and his team for their advice and the added value of the Belgica de Weerd products.

BELGA RECHARGE

High quality protein preparation, ideal for a quick recovery after the race and to prevent protein shortages during the racing season, the moult and the breeding period. **Belga Recharge** is not only rich in protein, but also in fats, minerals, vitamins, amino acids and tannins. Due to the high protein content in combination with the presence of a broad spectrum of vitamins, amino acids and minerals, in particular **magnesium (2%)** and **calcium (2%)**, the recovery of your pigeons is supported after strenuous efforts. **Belga Recharge** also contains Excential Energy Plus to maximize the conversion of fats from the feed and thus optimize recovery and build-up to the next race.

BELGA CARBO ENERGY

High quality energy supplement from singular and complex carbohydrates, vitamins, minerals and trace elements. In addition, **Belga Carbo Energy** contains both **L-Carnitine (14%)** and **Excential Energy Plus**, which ensure that the fats from the feed are optimally converted into energy. In short, the perfect energy boost for your pigeons in the preparation of a race.

BELGABAC

Good intestinal health is of great importance for the welfare of your pigeons. In order to support intestinal health, the regular provision of probiotics is therefore recommended. With the new, improved formula for **BelgaBac**, we can even better provide for this need. Thanks to the combination of high-dosed **probiotics** and **prebiotics** and a broad spectrum of vitamins including **biotin** and **choline**, the intestinal system and liver function are effectively supported. Throughout the year twice a week BelgaBac promotes a balanced intestinal flora. Ideal in stress situations, such as races and vaccinations and after antibiotic treatment.

PARA CONTROL BOOST

Para Control Boost is a new method to stabilize the intestinal flora, enabling the intestines to better eliminate pathogenic bacteria.

ParaControl Boost promotes the equilibrium in the intestines and thereby supports the overall resistance and immunity of the pigeons.

BELGASOL®

Belgasol® is a unique combination of electrolytes, vitamins and trace elements on an energy carrying base and improves rehydration in the body at high speed. This is important during the racing season at higher temperatures and with difficult races! Belgasol® is the best cure during the breeding season in case of sudden watery droppings when switching from crop milk to hard corn, experiencing more drinking, excessive grit and mineral picking as well as loss of weight. The effect is better and faster than with conventional electrolytes.

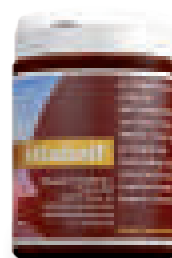

BELGA BION®

Belga Bion® is a high quality, easy dissolving, balanced multivitamin preparation (13 vitamins) based on energy carriers. It contains minerals and trace elements including iron and iodine. Belga Bion® is administered for a rapid and effective treatment of vitamin deficiency in cases of stress and before and after the races. Can also be used after therapeutic treatments.

BELGARLIC + VIT. E

High quality garlic oil with garlic extract and essential fatty acids including a high level of vitamin E, improving the overall resistance after infectious diseases, and to help in stressful situations. For optimal breeding; positive results regarding fertility problems; stimulation of the digestive system; detoxification of the body and purification of the blood as well as acting as an antioxidant. Belgarlic + Vit. E to be combined with Belga Super Fit for improvement of the condition and for an optimal moult.

VITABOLI®

Vitamin pills based on the vitamin B complex, which stimulate speed and endurance, can also be used in cases of acute field poisoning and have a positive effect on fertility disorders in older breeders.

L. & W. Flanders

82

Lahib Farid and Willem Seton began their partnership in 2021, racing and breeding at their loft in Lekkerkerk (South of Holland). Their pigeon stock is mainly built from the pigeons of Flanders Collection (Yannick De Ridder), Dirk Van den Bulck, and Pierre Beyl (B), as well as the well-known lofts of Gerard Koopman, G. & S. Verkerk, and Gebr. Leidemann A&B (NL). The breeding loft contains more than 40 children from 1st National Ace Pigeons of the Netherlands and Belgium.

Richard van de Haterd

88

Richard van de Haterd and together with his wife Miranda, he takes care of the pigeons. Thanks to their teamwork, they manage to perform at a high level year after year. Richard runs his own insulation company and leads a busy life, but the pigeons remain a daily priority. Their shared commitment forms the base of their success.

Since 2021, they have managed to appear every year among the International Golden Duif Champions, something they are very proud of. On his loft the most pigeons come directly from well-know and famous breeding sources Embregts-Theunis, Joop Groenen, F. & K. Marien (B), Hok Jos Vercammen (B), Stickers-Donckers (B). These bloodlines form the foundation of the loft and contribute to the steady results they achieve each season.

89

Jos Thoné

Jos Thoné is a household name in Belgian pigeon racing, renowned for victories from 100 km sprints to 1,000 km marathons and top results in One Loft Races worldwide. His star, Pattaya Avril, narrowly missed gold at the Pattaya OLR, finishing second after 530 km in the leading group. Despite sending small teams, Jos and Xavier consistently achieve remarkable results on One Loft Races and they are one of Belgium's most successful and respected lofts.

Combination Hendriks-Sanders

A small loft with smashing results!

102

164 X 1ST PRIZE IN THE CLUB FROM 2015 TO 2024 (NO DOUBLE RACES)

In 2025 Hendriks-Sanders performed 14 weeks in a row in PIPA's "Best Performances of the Netherlands" and GPS "In the Picture". A great achievement! 58x in PIPA's "Best Performances of the Netherlands" 2021-2025

Original Will & Falco Ebben

The Sanders-Hendriks Combination has shown a remarkable improvement in performance over the past few years, thanks to the introduction of direct pigeons from Will & Falco Ebben. From these top breeders, they purchased several outstanding pigeons, including: children of Indy x Diablo, Full sisters and brother of Linus, 1st National Châteaudun (12,511 pigeons), "Linus", sire of Pizza and Pandemic, Fidel x Indy, Cyrus, Evolution, Spartacus, Katja, mother of Pandemic" & "Pizza, Hannibal, Paulina, Olympic Blue Friday" (from Frans Strikker, 100% Ebben), etc.

The Ebben pigeons took the Hendriks-Sanders Combination to a higher level, with many first prizes and fantastic results at club, federation, provincial, and national level.

They compete in one of the strongest regions of the Netherlands. Names like H. & E.J. Eijerkamp, Lotte Eijerkamp, Marcel Sangers, Alwin Petrie, Joop Groenen, van Olderen-Janssen, W. Geurtz & Son, etc. are their competitors.

21 FIRST PRIZES PROVINCIAL OR FEDERATION 2021-2025 (NO DOUBLE RACES)

Team de Hoogh

104

Team De Hoogh represents 103 years of family tradition at the highest level of Dutch pigeon racing. Built by Dries, Gert and Danny de Hoogh together with Ad van Vugt, the loft has grown into a consistent force with multiple NPO wins, provincial victories and a long list of top results. The foundation lies in the legendary “Adwin” line, strengthened by elite bloodlines to form a colony known for top results at any distance until 750 km. Top performers such as “Magic Ad,” “Julia,” “National Storm,” “De 05,” “Femke,” and many others underline the exceptional depth of the loft. With national references across Europe and beyond, Team De Hoogh continues to prove its status as one of the most dominant lofts in modern pigeon racing.

Team Kat

106

Team Kat have been at the top of national pigeon racing in recent years. With their “Kai Verbij”, they own one of the best breeders in the Netherlands. Thanks to him, they manage to breed national ace pigeons year after year. Just think of “Bucks Verbij”, “Janus Jr.”, “Milou”, “Olympic Jutta”, and “Blue Sifan” – all national ace pigeons and grandchildren of “Kai Verbij”.

National Ace Pigeons bred and grandchildren Kai Verbij over the last years:

“Bucks Verbij”

1.-1.-1.-1.-1. Prov. Ace 2021 – 2023

3.-4.-4.-5.-10.-10. Nat. Ace 2021 – 2023

6x first price in CC

= Mother 8th Nat. Ace 2024 raced by R.C. Bakker

Wim Scholten

108

Wim Scholten from Wapenveld has been fully committed to pigeon racing since 2019. Bringing the same dedication he applies to breeding top show jumping and dressage horses, Wim strives only for the highest results, and he achieves them impressively. His performances include top national places such as 10th National Young Bird Champion 2022 and top positions in major races like NPO Gien, Bierges, Morlincourt, Chimay, and Issoudun. Wim excels with his exceptional grizzle and grey pigeons, led by his standout bird “First One,” which claimed 1st NPO Gien with a minutes lead.

(won by 2 granddaughters)

Jan Nijboer

114

Jan is known for his great passion for his pigeons and is very ambitious. It couldn't be any different when you set up such a beautiful loft, perhaps the most beautiful loft in Europe. Many impressive achievements have already been made since 2021. Several NPO victories, sector victories, national ace pigeons and Olympiad pigeons, with big star; "Ariana", the loft Nijboer are one of the best of The Netherlands.

Looking for the
best care for
your pigeons?

Comb. Huisman

A passionate family team of pigeon fanciers; father, son, and grandson who have built one of the strongest racing lofts in the Netherlands in recent years. Their name has become synonymous with top performance, consistency, and true excellence in pigeon sport.

Over the past seasons, the Huisman loft has produced several Olympiad pigeons and National Ace pigeons, and achieved countless top results and teletext top 10. Their racing performances are often described by fellow fanciers as "out of this world," thanks to their incredible series of results and multiple victories in strong

competition. There are 1st General Champion Speed (Unnominated) in the combine for 9 years in a row (2017–2025)

The combination proudly races and breeds from an exceptional collection of champions, including "THOR," "OLYMPIC WILLY," "OLYMPIC LUNA," "OLYMPIC JULIA," "OLYMPIC LIAM," "MIRTHE," and many others.

For most fanciers, owning pigeons of such extraordinary quality remains only a dream, but at the Huisman loft in IJsselmuiden, that dream has truly become reality.

Gibb & Byrne Lofts

120

Gibb & Byrne Lofts is mainly managed by Ian Gibb and his family, together with his close friend Henry, the Vanrobaeys agent for Ireland. Ian is regarded as one of the most influential and successful fanciers in the United Kingdom, with countless top references across England and Ireland. His exceptional family is based on pigeons from Stefaan Lambrechts, Nick & Roger Thys, Stefan Steenbergen and Luc Vervoort, and more recently, Team de Hoogh. Known for his sharp eye for quality, Ian always seeks the very best in the sport. His newest acquisitions include top pigeons from Gerard & Bas Verkerk and Ruud & Dolf Bakker.

Cor Walda

Dreams come true....

In Zwolle, dreams are turning into reality at the loft of Cor Walda, one of the brightest stars in Dutch pigeon racing today. Cor has risen to the absolute top with a series of breathtaking results. Every race, his name appears among the very best, and the recent two seasons proved to be truly exceptional. His sensational hen “Olympic Super Girl” was crowned 1st Olympiad Bird Cat. Long Distance 2026 and 1st National Ace Long Distance 2025. Alongside her, champions like “Jane”, “Olympic Hakon”, and “Roxy” confirm that Cor Walda is a name destined for greatness.

Also he was the 2nd Best Fancier of The Netherlands in 2025, with a small colony he has one of the best “Pigeon-Family’s” at the moment.

DISCOVER THE POWER OF 60 YEARS OF BEUTE DNA

For more than 60 years, the name BEUTE has been synonymous with top quality, reliability, and true champions in the pigeon sport. Year after year, outstanding results have been achieved at all distances - from 100 to an impressive 750 kilometers. In recent years, the loft has flourished under the name BEUTE & HANSEN, but the quality remains unchanged: elite class.

BEUTE & HANSEN

The Legendary founder:

VECHTMACHINE

♂ NL09-1652988

At the foundation of this exceptional family stands the world-famous VECHTMACHINE 09-1652988.

A phenomenon in the pigeon sport, responsible for producing more than 700 first prize winners in his offspring.

His name appears in the pedigrees of national winners, Olympiad pigeons, and other top performers in multiple countries.

At our own loft, fifteen to twenty first prizes are won each year - at all distances, without exception.

Kees Nijeboer

1. Nat. Champion NPO M.D. nominated 2024

140

In 2024, Kees Nijeboer from De Pollen achieved the ultimate dream in Dutch pigeon racing, 1st National Champion Middle Distance of the Netherlands. His outstanding trio of hens, “Elke Sola,” “Imke Sola,” and “Nafi Sola,” dominated the races with breathtaking consistency and class. Their bloodlines, combining the very best of Willem de Bruijn, Pieter Veenstra, G. & S. Verkerk, Hooymans, and Gebr. Leideman, form the genetic foundation of this remarkable success. Years of dedication, selective breeding, and pure passion have turned Kees Nijeboer into one of the most respected names in the sport.

Piet Lindelauf

142

1. Best National Champion of The Netherlands 2025

The name Lindelauf, is a well-known name in the pigeon sport, they started his loft with Janssen Brothers pigeons (famous "Geeloger & Merx" line) in 1990. Over the years this material crossed with several top pigeons, now we built our own bloodline, which is successful from 100 up to 900 km. Last season (2025) was very special, Piet ends this fantastic season as; **National Best Fancier of The Netherlands.**

BELGICA DE WEERD

B.S.® (Better Digestion) - powder

B.S.® is a combination of active substances already successfully used worldwide for many years and has become a household name. B.S.® improves digestion and promotes the moult. Preventive and curing against protozoal diseases such as coccidiosis, trichomoniasis (canker) and hexamitiasis. Also effective against crop and intestinal infections.

4 in 1 Mix

A combination remedy with quick effect in case of adeno-coli syndrome. Also used in case of chronic watery droppings due to former PMV (paramyxovirus) infections. Symptoms, mostly with young pigeons: loss of condition, vomiting, green-yellow watery/slimy droppings, loss of weight and death. 4 in 1 Mix is the alternative for Belgamco®.

Belgamco® - powder & tablets

Combination remedy for the treatment of the adeno-coli syndrome in old and young pigeons (green-yellow watery/slimy droppings and vomiting, loss of weight, death) and other gastro-intestinal (E.coli) infections, enterococcus, streptococcus and staphylococcus infections especially for staphylococcus intermedius, one of the primary causes of ornithosis complex (sinusitis). Quick and effective working

Belgasol®

A unique combination of electrolytes, vitamins and trace elements on an energy carrying base and improves rehydration in the body at high speed. This is important during the racing season at higher temperatures and with difficult races! Belgasol® is the best cure during the breeding season in case of sudden watery droppings when switching from crop milk to hard corn, experiencing more drinking, excessive grit and mineral picking as well as loss of weight. The effect is better and faster than with conventional electrolytes.

BelgaTai®

Veterinary medicine for the treatment of the ornithosis complex with symptoms such as: dirty noses, difficult breathing (rattles), swollen eyelids, yawning, decreased desire to fly, sneezing and scratching of the head, darkening of the cere and swollen heads.

BelgaCoxi® - tablets

Veterinary medicine for the treatment of coccidiosis contamination in pigeons caused by Eimeria labbeana, Eimeria columbarum and Eimeria columbae. Easy to administer, highly effective and without any negative side effects. Pigeons can be fed normally. Enhances the condition. Coccidiosis mainly occurs in birds with low resistance and high infection pressure in a humid environment with litter on the floor. In severe cases the pigeons produce watery droppings and slowly lose weight.

BelgaMagix® - tablets

Veterinary medicine for the treatment of trichomoniasis (canker), hexamitiasis and infections of the crop, both protozoan and anaerobic. Easy to administer, highly effective, without any negative side effects, no nausea. BelgaMagix® Tablets can be administered even when basketing. Ideal for individual treatment of your pigeons. If necessary, from the age of 1 week.

Orni 3

Veterinary medicine effective in cases of symptoms of ornithosis complex (infections of the respiratory system). Particularly suitable for young pigeons.

OrniSpecial®

Veterinary medicine for the treatment of the ornithosis complex with symptoms such as: dirty noses, difficult breathing (rattles), swollen eyelids, yawning, decreased desire to fly, sneezing and scratching of the head, darkening of the cere and swollen heads.

ParaStop® Powder & Para Tablets

ParaStop® is used against paratyphoid (Salmonellosis), E-Coli and a-specific intestinal infections, caused by Gram-negative bacteria. It is a combination preparation that has proven its reliability for many years. Can also be administered during the moulting and breeding period, even with newly-hatched squabblers.

W.N.® Red

A conditioner which is effective against infections of the upper respiratory system (Chlamydia spp.) and of the intestines. Even after years of use, the effects of this veterinary medicine are fully preserved.

BelgaWormac® - tablets

Veterinary medicine for the treatment of worm infections caused by hair, round and tape worms (Capillaria spp. and Ascaridia spp.). Ideal for the individual treatment of your pigeons. Fast and effective working, no negative side effects, no nausea. Pigeons can be fed normally. BelgaWormac® tablets can even be administered in the week of basketing. Do not administer during the moult or to nestlings.

Original Willem de Bruijn

**Orig. H. & E.J
Eijerkamp**

Belgium Speed Pigeons is driven by Cornelius Krijnen. Cornelius is well known for his sharp eye for quality and constantly searching for pigeons from the highest tier in pigeon sport. Although Cornelius does not race pigeons himself, he breeds for several top fanciers, resulting in impressive references, including a 1st and 2nd National Ace Pigeon of the Netherlands.

His loft is built around pigeons from Hans & Evert-Jan Eijerkamp, Gebr. A. & B. Leideman, Gerard & Bas Verkerk, PIPA Breeding, only the very best bloodlines in the world meet his standards. His birds are admired by fanciers across the world, confirming his reputation as a premier breeder.

C. van Oeveren

150

Corne van Oeveren has developed a consistent and well-structured marathon family, characterized by hardness, endurance, and reliability on the long-distance races. Through strict selection on natural ability, he has created a homogeneous group capable of performing under a wide range of conditions. The family is further strengthened with direct pigeons from fanciers such as Jelle Jellema and Arjan Beens, whose lines align well with his long-term breeding vision. This combination of focused selection, practical experience, and strong genetic foundations forms the basis of his current colony.

Bruce Verbeek

The sensation of the 2025 season.....

152

Was among the very best on a weekly basis, and that with only a limited number of pigeons. He became Grandmaster of the Netherlands twice, a title awarded to the best-performing loft in the country on a specific race, achieving this on M22 Melun and V25 Niergnies. On V25 Niergnies, he also achieved a remarkable "Clean Sweep" (100%), scoring the maximum number of points, which earned him a beautiful television. Week after week, Bruce Verbeek could be found featured in Mooie Prestaties Nederland @ PIPA, Hard Gepakt! @ Herbots and In The Picture @ GPS Auctions. This crowned an unforgettable dream season. All of these results were achieved with pigeons originating from Paul Groeneveld, Jan de Leeuw, Hans Steinmann, Henny La Grouw, and VDK - Maurice van der Kruk.

Gebr. Hoogeveen

154

The Hoogeveen Brothers, Bart and Thijs, are two rising talents in the pigeon sport who have claimed numerous 1st prizes in recent years. They are also making their mark in the One Loft scene, investing heavily and achieving strong results by crossing their own Cyrus (Ebben) line with pigeons from Marc & Geert Pollin. This successful combination produced several top positions in the Golden Algarve Final, including a 4th place in last year's semi-final. Their loft houses birds from the exceptional Blizzard King Kittel line, including a son and a brother, but their most treasured pigeons are two sons of Rudy van Reeth's legendary "Pitbull." These are considered the best sons ever bred from Pitbull, together producing 13x Top 10 National Ace Pigeons.

Exclusive Blizzard

Gert van den Bogaard

A very strong allround loft for many years...

Over the years, he has built a well-established loft with outstanding pigeons for races ranging from 100 to 700 km. The base of my bloodline is the old Janssen strain, obtained through Johan and Albert Verhoeven from Goirle. He has strengthened this foundation with top pigeons from G. & S. Verkerk, J. & F. Hendriks, Rik Hermans, W. & F. Ebben, Geurt and Alie Doppenberg, Team Noël-Willockx, and descendants of "the 600" from Stultjens Van Dongen.

NATIONAL TOP RESULTS IN RECENT YEARS:

Burggraaf Global

The Power Behind Tomorrow's Champions

Burggraaf Global is among the most remarkable breeding lofts in the Netherlands not only because of its rich history, but above all for the exceptional quality it represents. For generations, pigeon racing has been passed down from father to son within the family, and that tradition continues today through modern breeding, elite bloodlines, and international collaboration.

Burggraaf Global has built a collection featuring the very best from Dirk van den Bulck, Gebr. Leideman, PIPA Elite Center, and Gino Clicque, among others names that each stand for proven excellence and international success.

In their loft, Burggraaf Global houses descendants of world-class pigeons... where speed, intelligence, and endurance unite in the champions of tomorrow.

Unseen Forces

♂ NL18-4224834

Impressive producer – direct from the Flanders Collection

"The genetics of Unseen Forces are exceptionally strong. His offspring achieve remarkable results at the highest level. Here are some impressive achievements of his sons, daughters, and grandchildren."

Father to a/o.

1. Morlincourt 10.627 p. / 3. Prov. Roze 2.379 p. / 3. Final Thailand Master 2.305 p. / 4. Prov. Chimay 7.544 p. / 5. Prov. Laon 10.564 p. / 7. Prov. Chimay 7.544 p.

"These performances confirm the value of Unseen Forces as a top breeding pigeon within their colony. His descendants continue to excel time and again in international races."

Father = BE14-6091710 New Kittel

"New Kittel" is a proven champion with, among others:
Reserve Olympic Ace Young Bird – Budapest 2015

1. Quievrain 1.371 p. / 3. Quievrain 1.993 p. / 8. Quievrain 1.571 p.

= Father to a/o:

1. Car Race SAMDPR South-Africa / 2x 1. Final Winner OLR
1. Nat. Ace Bird Long Distance / 1. Prov. Ace Bird +500 km.

Mother = BE14-6091788 Magic Kittel

"Magic Kittel", is a proven super breeder, including descendants such as:
UK Kittel – 1st RPRA National Ace Pigeon Sprint 2019

17-041 – 1st RPRA Semi-National Ace Pigeon Sprint 2018

1. Prize – 4.168 p. / 1. Prize – 4.509 p.

1. Prize – 2.569 p. / 1. Prize – 1.000 p.

**Elite cross: full brother
× full sister "Kittel"**

Elite cross: son
"Goed Grijs" x "Crack 19"

Triple Crown Grijs

♂ BE24-4173620

169

Top racer and already producer – direct from PIPA Breeding

One of the best youngsters at Goemaere in 2024, he achieved 7 prizes within the top 10% during the Young Bird season.

1. Ecouen 1.336 p. / 1. Pont St. Maxence 1.099 p. / 1. Ecouen 281 p.
2. Noyon 746 p. (beaten by loftmate) / 4. Pont St. Maxence 817 p.
4. Pont St. Maxence 362 p. / 8. Pont St. Maxence 1.766 p.
10. Pont St. Maxence 1.370 p. / 11. Pont St. Maxence 408 p.

Already father to 054-25: 1. Pont St. Maxence 691 youngbirds

Father: NL23-9581927 "Wonder van Goed Grijs", sublime Leideman Breeding Cock. Already sire of 35 prizes within the top 1% across seven different lofts, including 11 pure 1st prizes (no doubles).
= **Son** "Crack 19" x "Goed Grijs"

Mother: BE23-4181367 "Daughter Méchant BK", Super breeding Hen! Mother & grandmother to six different 1st prize winners. Hyper Exclusive!

Geeloger Radiance

♀ NL25-1095493

Hyper Exclusive! – direct H & E.J. Eijerkamp

Father: BE22-2090273 "Geeloger" (Erik Limbourg)

Goran Gusak

The name Goran Gusak is synonymous with success in Croatia. A true grandmaster, he ranks among the elite of international pigeon racing, consistently proving his excellence in national competitions and One Loft Races across Europe.

Gusak's pigeons are renowned for their quality, bred from the very best bloodlines including the legendary Gebr. Leideman. He has a very famous pigeon named "Grizli Adams", himself a top performer and the nest brother of "Goed Grijs".

Grizli Adams

♂ BE15-6106414

Famous Nest brother
"Goed Grijs"
(7x 1) Gebr. Leideman!

"Grizli Adams" (Orig. Gebr. v.d. Brande (B),
raced by Gebr. Leideman)
won a/o: 7.-17.-29.-29.-68.-etc. against 6.000 p.

Marathon racing with a true champion breeding team

The pigeon colony of Jan Morsink is one of the most impressive in Dutch pigeon racing. Jan's love for the long distance disciplines is very good visible in his breeding loft.

Marathon lines:

- Jelle Jellema pigeons; children to 'Zwart Goud', 'Orion', 'Dafne' and 'Romee'
- Gerard Koopman pigeons; children to 'Red Bullens', 'Leonidas' and many more!
- Arjan Beens pigeons; children from the very best of 'Miss Gijsje', and many more!

R. & K. Vos

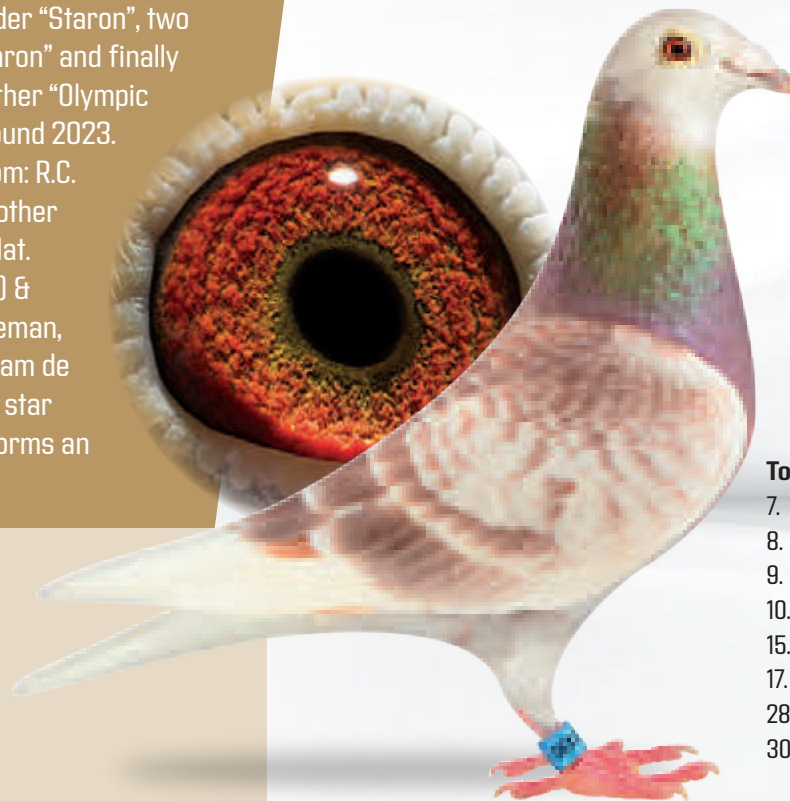

181

The father-and-son partnership R. & K. Vos consists of Roy and his son Kobe. Roy has been involved with pigeons since the age of six, and Kobe caught the pigeon-racing bug when he was eight years old. Together they have formed a partnership since 2025. Before that, Kobe raced on his own for several years, focusing exclusively on young birds. Among fanciers under 25 years old, he regularly ranked within the top five champions, and in 2024 he even achieved 5th place in the Fondspiegel category 1. As of 2025, the combination now races both old and young birds.

In the breeding loft, you'll find some of the very best bloodlines from Comb. G. & H. Calis, including children from absolute top breeders such as: "Vale Bulck", a son & daughter of the proven breeder "Staron", two daughters of foundation sire "Red Baron" and finally two sons of super breeder "Iris", mother "Olympic Marijke" & "Red Iris", 1. Prov. Ace Allround 2023. Additional pigeons were acquired from: R.C. Bakker (Zoelen), a son of "13-811" (mother "Artus") & "Gr.d. Germini", mother 4. Nat. Best Youngster NPO (Under 25 years) & 5. GP Morlincourt 5.968 p, Gebr. Leideman, granddaughter of "Crack 19 x Jet", Team de Hoogh, two youngsters directly from star "National Storm". It's clear that this forms an exceptionally strong foundation.

BEST RESULTS:

- 1. S-PROVINCIAL ACE YOUNGSTERS 2023
- 6. PROVINCIAL ACE YOUNGSTERS 2023
- 5. & 6. GP MORLINCOURT 2025 5.968 P.

MVN-PIGEONS

182

The name van Nunen has stood for quality, character, and performance in pigeon racing for three generations. Marc van Nunen is a Dutch racing pigeon breeder who has been active in Germany (Geldern) since 2003. The foundation of his strain is built on the bloodlines of Janssen-Arendonk and Eijerkamp-van Loon.

With the old Janssen base, Marc achieved numerous successes between 1986-1998, incl.:

- 1. Champion NABvP 1992
- 3. Champion NABvP 1993

After Marc's active racing period, his father Ron achieved great success once again with the same old strain and the introduced (2016-2023). Ron died Christmas 2023.

The current stock pigeon is "DEN DUITSER" and won four fist prizes for C. Maas & Zn. Now, after his racing career, he returned back in the stock of MVN-PIGEONS and has passed on his genes to many good pigeons. His blood runs through most of the current pigeons in the stock.

Racing and breeding is our passion

Bred by MVN-PIGEONS,
Raced @ Eric Maas
